SAFETY & RISK CONTROL SOLUTIONS

Environmental Management is not only imperative with regard to compliance concerns, but also from an ethical standpoint. Our staff can identify concerns through gap analysis and determine areas that minimize the risk of fines.

We offer services proven in minimizing losses, including, but not limited to:

- ◆ Implementation of a site-specific Environmental Management Program
- ◆ On-site Professional Training courses
 - DOT HAZMAT
 - Hazwoper Refresher
 - Hazardous Waste
- ◆ Program Audits
- ◆ Phase I Site Assessments
- ◆ Energy Audits
- ◆ Asbestos consultation
- ◆ ISO 14001

proactive solutions for your safety and risk control needs

INDUSTRIAL HYGIENE SOLUTIONS

Understanding which, if any, of the thousands of chemicals may be a concern at your workplace is the job of a Certified Industrial Hygienist. Our CIH's can help you identify potential chemical or physical contaminants, evaluate the severity of your employees' exposures, and assist in controlling or eliminating the hazard.

OUR EXPERTISE & SERVICES

- ◆ Chemical and Particulate Air Monitoring
 - Organic Vapors
 - Heavy Metals
 - Silica
- ◆ Noise Monitoring & Surveys
- ◆ Indoor Air Quality (Mold, Microbiological, Chemical) Assessments
- ◆ Qualitative Exposure Assessments
- ◆ Ventilation System Assessments
- ◆ Hazard Communication
 - Program Development
 - Employee Training

SAFETY & RISK CONTROL SOLUTIONS

With an average of 20 years Industrial Hygiene experience on our staff, The McCart Group has conducted industrial hygiene consulting at a wide variety of industries, including:

- ◆ Concrete Manufacturing
- ◆ Metal Manufacturing and Recycling Facilities
- ◆ Plastics Manufacturing
- ◆ Wood Products Manufacturing
- ◆ Chemical Processing
- ◆ Utility
- ◆ Food Processing
- ◆ Warehouse and Distribution
- ◆ Residential and high-rise commercial buildings, including hospitals
- ◆ Construction Sites
- ◆ Surface Mines
