

proactive solutions for your safety and risk control needs

FLEET SAFETY & SECURITY SOLUTIONS

The McCart Group Risk Control team offers expertise in fleet compliance, safety, and cargo security. We understand the Federal Motor Carrier Safety Regulations and how they fit into the new enforcement initiative; CSA (Compliance, Safety, Accountability). We also understand the serious risk of cargo theft to your operation and reputation. Contact us today to schedule a Complimentary Risk Management Assessment with a Transportation Specialist.

OUR EXPERTISE

- ◆ Fleet Management
- ◆ FMCSA Compliance
- ◆ Driver Selection, Qualification and Retention
- ◆ Cargo Security
- ◆ Recordkeeping and Hours of Service
- ◆ NATMI Certified (North American Transportation Management Institute)
- ◆ Partnership with **DriverCheck** vehicle monitoring service

SAFETY & RISK CONTROL SOLUTIONS

The average cost of a truck crash is \$91,000, and that does not include the indirect costs, which might be three times greater.

The average cost of a cargo theft is around \$471,000, and that does not include the cost of stolen vehicle equipment.

The typical result of a compliance review is a Conditional Rating and a \$6000 fine. Aside from this expense, a rating other than "Satisfactory" can have consequences on your business financially and legally. Our services are proven to reduce these risks, including, but not limited to:

- ◆ CSA Compliance
- ◆ Security Enhancement
- ◆ Fleet Management Program
- ◆ Driver Training
- ◆ Management Training
- ◆ Alcohol and Drugs Program Implementation and Training
- ◆ Accident Prevention Programs and Investigation
